

Holiday Gold Bow T-Shirt DIY

DO IT YOURSELF Gold Bow Tee

trinketsinbloom.com for ilovetocreateblog.blogspot.com

Add some sparkle to the holidays by creating a fun Holiday Gold Bow T-Shirt DIY using the easy to use Tulip Iron-On Transfer Sheets. With all your holiday running around and shopping to do, it's easy to just throw on a t-shirt and go. But why not add some sparkle and a festive bow to keep those errands from becoming too dull and help spread some festive cheer! This is a simple and quick way to create your own t-shirt designs to wear for the holidays and they'd make great gifts too!

TOOLS & MATERIALS:

[Tulip Glitter Shimmer Iron On Transfer Sheet](#)

T-Shirt

Iron

Scissors

Design

Pen
Cloth for ironing

step 1

Draw out your design on a piece of paper or use a stencil if you have one.

step 2

Trace around your design on your Tulip Iron-On Transfer Sheet.

You'll need to use a pen for this to make sure you can see your lines.

step 3

Cut out your design carefully to make sure you don't see your pen lines.

step 4

Place your design on your t-shirt where you want it.

Lay your cloth over your design and press with your iron.

Keep moving your iron around for about a minute to make sure your design is set.

Make sure you use a dry setting on your iron, **NO STEAM.**

Check your design to make sure it is all secure and adhered to your t-shirt. If you need to you can iron it more to make sure it's secure.

These [Tulip Iron-On Transfer Sheets](#) are so easy to use. I was really surprised at how well (and quickly) they attached to the t-shirt. It was really simple. You can use these to make so many fun graphic T-Shirts to wear yourself or give as gifts.
